Answer Key

Solve and show all steps.

The temperature on Tuesday morning was -13°F .

The new depth of the submarine is -150 feet (or 150 feet below sea level).

Her new bank account balance is $-\$30$ (she is overdrawn by 30).

The hiker's final elevation is -300 feet (or 300 feet below sea level).

The player's final score is **5 points**.
